EXPERIENCE

2017 IT MANAGER – INFORMATION SECURITY OPERATIONS - CONFIDENTIAL

Managing and providing technical leadership for the global information security operations team and 24/7 Security Operations Center (SOC). Executing global security projects and day to day management of security services including identity and access, endpoint security, vulnerabilities, email and web security, incident response, SIEM, and user awareness and education.

2016 IT MANAGER – SERVICE DESIGN - CONFIDENTIAL

Managed and implemented Design Thinking, Agile, LEAN, ITSM, DevOps, and DevSecOps methodologies across multiple IT and business departments. Contributed to strategic IT decisions, provided advice to the CIO office, IT architecture, engineering, and operations department heads.

2014 IT MANAGER – AUTOMATION AND TECHNICAL SERVICES - CONFIDENTIAL

Managed IT infrastructure department with responsibilities for the global data centers, virtualization, private cloud, computing and storage infrastructure, and SCADA automation systems. Engineered, deployed, and managed infrastructure to various business units. Used Agile and DevOps philosophy to optimized project delivery and task completion. Lead the team to upgrade and rebuild several large data centers in the US and virtualized more than 90% of the entire compute infrastructure.

2012 IT MANAGER – AUTOMATION SERVICES - CONFIDENTIAL

Provided technical leadership in large-scale design, update, deployment, and operations of the global SCADA automation infrastructure. Lead and facilitated a team to architect and design an in-house build converged infrastructure to host SCADA automation systems for more than 40 locations. Virtualized 100% the entire SCADA infrastructure using the VMware technologies and converged compute and storage platform.
